Assignment 2

MSDHONI

He was the face of Chennai Super Kings for the first eight editions of the league, leading them to two titles (2010 & 2011) and four runner-up finishes. He then became the first player to be drafted by Rising Pune Supergiant in the ninth edition of the league. And, he once again became the first player to be retained by CSK ahead of the IPL Player Auction 2018. A batting powerhouse, MS Dhoni possesses the ability to destroy different bowling attacks on his own. The calmness and composure in his demeanor along with a sharp cricketing brain accounts for a lethal combination on the cricketing field and the glistening silverware in the trophy cabinets at CSK are a testimony to his extraordinary leadership skills.

ROHIT SHARMA

All eyes are on this man as he leads Mumbai Indians, the three-time champions of the VIVO IPL. The team in blue and gold are aiming to become the most successful side ever by capturing their fourth title and Rohit Sharma is the most important cog in MI's wheel. A prolific run-getter, the Hitman is one of the most naturally gifted batsmen in the world. When it comes to the shorter format, there are few who can match his striking abilities. Rohit proved why he is regarded as a special talent when he became the first batsman to strike two double centuries in the ODIs. He was one of the most consistent Deccan Chargers batsmen in the first three seasons of the IPL, and was instrumental in his former franchise winning the 2009 crown.
